Kyu S. Choi

| **Project Engineer** | **Battery Manufacturing & Piping Systems**
kuseok0777@gmail.com | Windsor, ON | https://www.linkedin.com/in/kyuchoiatgmodis/

Mechanical Engineering graduate with hands-on experience as a Project Engineer on a multi-billion-dollar battery manufacturing project in Canada. Experienced in piping constructability review and utility interconnection validation using P&IDs, isometric drawings, and 3D model Coordination. Coordinated with the client, contractors and management teams to support installation and resolve technical issues.

Technical Skills

Navisworks | AutoCAD | Excel | ANSYS | SolidWorks | P&ID / Isometric Review | 3D Model Coordination | Python

Professional Work Experience

Project Engineer July 2025 - Present
GMODIS Inc | Windsor, ON

- **Piping & constructability**: Supported piping installation and constructability reviews for process utilities and interconnections in the Mixer process area of the NextStar Energy battery plant, verifying alignment between P&IDs, 3D models, and site conditions
- **Design & clash resolution:** Identified design discrepancies and potential clashes using Navisworks, enabling timely field resolution and minimizing installation rework
- **Testing standards:** Reviewed piping codes and line classifications, and operating pressures to determine hydrostatic or pneumatic testing requirements in accordance with applicable standards
- **Handover & acceptance:** Participated in punch list development and system handover activities, enabling ~70% Category C/D acceptance while reducing schedule and manpower impact
- **Coordination:** Coordinated with contractors, management teams, and the client to support installation activities and resolve technical issues across international project teams
- **Cost savings:** Contributed to supplier negotiations, achieving ~4% material cost savings (~$13,000) and improving payment terms from 80/20 to 70/30

Leadership Experience

Republic of Korea Army Sep 2021 - Mar 2023

- **Logistics:** Led supply and logistics operations for 200+ weapons and equipment, maintaining 100% accountability with zero loss incidents
- **Squad Leader:** Directed a squad during 6+ field operations, supervising 8 personnel to ensure safe and successful mission execution

Education

Queen's University | Bachelor of Applied Science, Mechanical Engineering June 2025
